StoreBox™ STORAGE BOXES

Made of high impact polystyrene

Color your world with a wide variety of economical storage boxes for tubes from 1.2 to 5 ml.

These storage boxes are designed to be used at temperatures between -90 °C and +80 °C. Different models are available to accommodate either 25, 81 or 100 sample tubes.

A transparent cover allows the user to see the contents of the box, and is keyed to the base to prevent misalignment. Printed with a series of squares (numbered from 1 to 25, 1 to 81, or 1 to 100), the surface accepts writing with markers, facilitating inventory control.

A unique color coding system uses colored plastic grids to separate the cover from the base on the 25 and 81-place boxes. Those made to accept 100 tubes (serie 2100) have a colored base instead of a grid. Removal of vials facilitated by an innovative vial picker supplied with each storage box. A choice of four popular pastel colors is available. Not autoclavable.

Series 225, 281 & 581 Storage Boxes

FEATURES AND BENEFITS

- 1 Cover has numbered squares for easy sample identification
- 2 Two corners of cover and base are cut to prevent misalignment
- 3 Writing surface for identifying base and/or cover
- 4 Vials readily visible through transparent cover
- 5 Air vents minimizing condensation
- 6 Drain holes under base
- 7 Stackable
- 8 Four pastel colors available for better color-coding

Made to fit freezer metal racks (see next page)

ALL CRYOSTORE™ STORAGE BOXES ARE EASILY STACKABLE
