

## M498 & M499

### HISTOSETTE® I

TISSUE & BIOPSY PROCESSING / EMBEDDING CASSETTES  
with 45° angle writing area

Made of acetal polymer

Disposable plastic cassettes hold tissue specimens during the embedding process, as well as in a storage file. Molded from a special high density polymer, these cassettes keep specimens safely submerged in liquid and are totally resistant to the chemical action of histological solvents. The efficient flow-through slots maximize fluid exchange and ensure proper drainage. The one-piece integral lid eliminates the need for separate steel lids. **Just snap apart and conveniently lock the lid into the base of the cassette.** They can be opened or closed as often as necessary and they always relock securely without danger of specimen loss. Large labeling areas are located on three sides of the cassette for your convenience. **Anterior writing area has a 45° instead of a 30° angle. The more acute angle makes these cassettes more suitable to be used with some models of cassette labeling instruments.**

Each case contains three dispenser boxes of 500 cassettes.

TISSUE		BIOPSY	
Cat. #	Cat. #	Color	Qty/Cs
M498-2	M499-2	White	1500
M498-3	M499-3	Pink	1500

#### HOW TO USE A HISTOSETTE® I

## M505 & M506

### UNISETTE™

TISSUE & BIOPSY PROCESSING / EMBEDDING CASSETTES  
with 35° angle writing area

Made of acetal polymer

Molded from a special high density polymer, these cassettes keep specimens safely submerged in liquid and are totally resistant to the chemical action of histological solvents. The efficient flow-through slots maximize fluid exchange and ensure proper drainage. The one-piece integral lid eliminates the need for separate steel lids. The snap-latch and hinge-lock design of the UNISETTE™ prevent early separation of base and lid and allows for one-hand operation. Lids can be opened and closed as often as necessary and they always relock securely without danger of specimen loss. Large labeling areas are located on three sides of the cassettes. Anterior writing area is at a 35° angle. Available in non-cytotoxic, non-metallic colors.

Each case contains three dispenser boxes of 500 cassettes.
